

Housing Checklist

Below is a list of things to consider and questions to ask when searching for an apartment. You can print this sheet out and take it with you when you visit apartments. When you are ready to sign a lease, be sure to read it very carefully, and ask questions if anything in the lease does not match your conversations with the landlord. Ensure anything promised to you by the landlord is written in the lease. You may be able to negotiate small changes, so do not be afraid to request changes prior to signing.
