Bike Safety

How to Signal When Riding Your Bike

- **Look Over Your Shoulder**
  Look for cars and signal before making a turn or changing lanes. Double check to make sure it is safe to move.

- **Use Hand Signals**
  Tell drivers where you are going.

- **Be Careful Changing Lanes**
  Only change lanes if you need to turn. Signal left or right before you change lanes.

- **If You Feel Uncomfortable Merging or Turning**
  Pull over to the side of the road and wait until the cars have passed.
